- Wellmark BCBS of South Dakota – Payment must be sent in full to laboratory with specimen

****Non-Contracted Providers** are not all guaranteed to be covered; *you should call to verify coverage with your insurance if you plan on filing the tests with your insurance.* Patients are responsible for any deductibles, copayments, cost shares, coinsurance, or balance. If for any reason your insurance company deems your lab work as a non-covered or medically unnecessary service, you will be responsible for the full amount of the charge.

CorePsych will not provide any prior-authorizations for testing.

DHA Labs (Walsh Testing):

- As long as your insurance is contracted with or covers testing through LabCorp then this testing ***should*** be covered, with the exception of the Kryptopyrrole Urine test which payment is requires at time of service (\$120). Patients are responsible for any deductibles, coinsurance or balance. If for any reason your insurance company deems your lab work as a non-covered or medically unnecessary service, you will be responsible for the full amount of the charge.

CorePsych will not provide any prior-authorizations for testing, that task is yours.
